9/15/68

Dear both,

In case you have wondered, this paper is the intermediate step in making copies with a 3M machine. Reusing it this ways saves me some money, so, instead of burning it or, as in the country is the only alternative, paying someone to cart it to the dump, I use it. Despite its disadvantages.

I have been trying to locate one Roy Varney, formerly news director of WDSU, who had a connection with one of the False Oswalds. I have the FBI reports if you ever want them. I wrote him there and yesterday got an unsigned note on a 3x5 card attached to the letter I had sent him with a copy of the reports. It said merely that he had left there four years ago and they didn't know where he had gone.

Can you, through organizational channels, locate him for me? I'd like to follow that down, if possible. The Alan Courtney, mentioned in Pearsez's "Insight On The News", or rather by Jim as a contributor, has or had a show on WTAM, Miami, aired these mercenaries, and had a call in from another obvious False Oswald.

Heard from Corky yesterday. He is in Vegas and I have asked that he undertake a few things there. He is still jobless, may move to N.O.

I have asked Steve B to check something with Skip. If he has leaned on him too hard and can get no cooperation, will you please try it? I am very interested in learning all I can about the Walley (Wiley?) Yates of whom he told me, including all the basic stuff, full and correct name, address, relatives, etc. The man he described could have been a hospital planter. My new interest is because - now have firm evidence of a possible connection between a Dallas Yates and Ruby. Easiest way on tape. I can, if necessary, transcribe here.

Sincerely,

Harold Weisberg
